Comment & experience from recent BOS events...

The Bio 2 Business conference has been growing from strength to strength year on year. The presentation session are very educational and very well perceived by the Pharma, Biotech and services companies. There is also a great opportunity to network. Overall this conference is an unique opportunity to collaborate we all parties present.

Michael Kruidenier, Head of Business Development, Quay Pharma,

2017 was my first attendance at BOS and I enjoyed it very much. This seminar was a great time to meet with CMOs in a quiet and relaxed atmosphere. It's been a great opportunity to hear from other's experience and challenges. The human size of BOS allowed an interesting networking and fruitful discussions with our partners. I'm sure to be part of the 2019 session. Many thanks for the good organization.

Carole Mainguet / CMO site manager / PT Development, External Manufacturing F.Hoffmann-La Roche Ltd

The conference was an excellent opportunity to meet a variety of CMOs in the DS/DP field and have sufficient time for discussion. The timetables available prior to the meeting were a very helpful tool in setting the meetings. The talks I attended during the sessions were informative and the diversity of attendees and presenters represented a wide cross section of the industry.

Mirjam Sax, PhD, Principal Site Manager, External Development Collaborations, PTDMX Small Molecules, F. Hoffmann-La Roche Ltd

I would like to thank you again for the opportunity of joining this exciting event. BOS cmc is the place where Analytical CROs meet CMOs together with outsourcing professionals! Because of its relatively small size, you can have the opportunity of knowing more providers experiencing their approach on the main CRO/ CMO activities.

Gabriele Sassi, Non Clinical Outsourcing Manager, R&D Outsourcing Management, CHIESI FARMACEUTICI S.p.A.

Very interesting event for specific networking and selective information sourcing on CROs and CMOs. Very informative talks from experts with many relevant case studies Good size and venue.

Mario Amacker, PhD, Head of Quality & Manufacturing, Mymetics BV

BOS2017 in Basel was, as always, a great event to attend.

A nice venue combined with a wide selection of vendors and relevant lectures by inspired speakers. For such an event it is a success if I return with a handful of new potential vendors and BOS was indeed a success.

Frederik Barfoed Beck, Senior Outsourcing Manager, Zealand Pharma

BOS CMC 2017 was a very informative congress which allows one 2 one meeting with CMOs and other collaborators, which is quite unique compared to other congresses. The topics covered in this congress were also very interesting and provided insight to all the relevant challenges regularly faced by biotech companies during outsourcing activities. Overall the event was organized meticulously by the organizers.

Yogeshwar Bachhav, Associate Director Pharmaceutical Development, Aicuris GmbH
